SUMMARY

- ❖ **Demonstrated strong problem-solving and analytical abilities:** Built and improved web applications, debugged issues efficiently, and applied logical thinking in academic and personal projects.
- ❖ **Proven teamwork and leadership:** Collaborated in group projects, led small development tasks, and contributed to successful project outcomes through clear communication and coordination.
- ❖ **Actively engaged in extracurricular learning:** Participated in coding practice, online development courses, tech communities, and university activities to continuously build technical and professional skills.

WORK EXPERIENCE

Web Developer Intern – Robo Tech Valley

Mirpur, Dhaka

Almost 2 months [2 November 2025 – 29 December 2025]

- Worked on group projects involving both frontend and backend development.
- Developed an e-commerce website (Daily Dairy Shop).

TRAINING

Ostad

Online Live Skill Development Platform

- Full Stack Web Development (Python/Django + React)

Udemy

Learn essential career and life skills

- Master Git and Github - Beginner to Expert

SKILLS

- **Programming/Frameworks:** Python, JavaScript, React.js, Django, HTML, CSS
- **Database:** SQLite
- **Tools & Services:** Git, GitHub, VS Code, Firebase
- **Soft Skills:** Team work | Project Management | Problem Solving | Leadership | Communication | Work Under Pressure
- **Language Skills:** English – Intermediate | Bengali – Native

PROJECTS

*BongoCare: X-AI-Based Chatbot for Mental Health Support using Customized LLM

Tech: React.js, Django, Python, Firebase, LLM (Mistral 7B)

- **Frontend:** Built a responsive and user-friendly interface using **React.js** to ensure a smooth chat experience.
- **Backend:** Developed a robust server-side architecture using **Django** (Python) to handle complex AI logic and data processing.
- **Database & Security:** Used **Firebase** for secure user authentication and managing real-time chat history.
- **AI Integration:** Implemented a **Customized LLM** to provide empathetic mental health support with **Explainable AI (X-AI)** for transparent responses.
- **Expertise:** Gained hands-on experience in **AI-Web integration**, real-time data handling, and healthcare data privacy.

*Number Guessing Game

- Tech: Python, Django, MySQL, HTML, CSS
- Built a CRUD system to manage student data.
- Designed models, forms, and a simple user interface.
- Improved understanding of backend development.

*Online Shopping System (Daily Dairy Shop)

- Tech: HTML, CSS, JavaScript, Django, SQLite Database.
- Built a full-stack web application to manage a dairy shop's daily operations.
- Implemented product listing, user interaction, and simple cart management.
- Admin Panel for managing products, orders, users, and site content. User Panel for browsing products, placing orders, and viewing order history.
- Implemented authentication, role-based access (admin/user), and form validation.

Integrated Cloudinary for image storage and WhiteNoise for static file handling. Strengthened understanding of web development, MVC architecture, databases, and backend logic.

EDUCATION

B.Sc. in Computer Science & Engineering (CSE) | Feb 2022 – Feb 2026

Green University of Bangladesh

CGPA: 3.03/4.00

HSC (2019) — Notre Dame College Mymensingh

GPA: 3.98/5.00

SSC (2017) — Rawsan Izdani Academy, Netrokona

GPA: 5.00/5.00

EXTRA CURRICULUM ACTIVITIES

1. Math and Science Instructor at Several Teaching Academies

(2022 - 2025)
2. Notre Dame Science Club | General Member

(2017-2018)
- Participated in science-related events and activities. Helped organize small competitions and group projects.
